#### **DETAILED ACTION**

1. The supplemental Oath or Declaration, Specification, Abstract, Drawings all filed 5/28/2009, are acknowledged.

Applicant's offer to surrender the original Patent filed 9/26/2001 is acknowledged.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dean M Munyon (Reg. #42,914) on May 7, 2009.

- 3. The application has been amended as follows:
- 4. In the Specification:

## Please amend the specification as follows:

In page 1 delete the paragraph before the heading "FIELD OF THE INVENTION" and replace it with the following paragraph:

--This application is a reissue patent application of U.S. patent No. 5,958,057, which issued from U.S. application Ser. No. 09/152,634 filed Sep. 14, 1998, which is a continuation of application Ser. No. 08/499,085 filed Jul. 6, 1995, now U.S. Pat. No. 5,809,313.--

### 5. In the Claims:

# Please amend claims 4 and 27 as follows:

4. (Twice Amended) The method of claim 1, wherein said environment further includes a second member[,] receiving said information broadcast by the broadcasting member, [whose] wherein the second member's operating voltage is switched-off, said method further comprising: [powering-on each said member]:

[said second member including a second interface coupled to receive said information, at least a portion of said second network interface receiving operating voltage at all times,]

a second network interface of the second member receiving said broadcasted information, wherein at least a portion of said second network interface is receiving power even though a remaining portion of the second member is not, wherein the second network interface [said interface] includes[ing] a second decoder, a second comparator, and a second power control unit;

said second decoder decoding said first type of information included in said broadcasted information;

said second comparator comparing [decoded] said decoded first type of information with at least one stored information pattern representing a power-on condition, said second comparator outputting a power-on signal to said second power control unit when said stored information pattern matches the decoded said first type of information;

said second power control unit [coupled to] providing[e] said second member's operating voltage to said second member upon receipt of said power-on signal[;

Application/Control Number: 09/965,484

Art Unit: 2116

wherein each member is powered-on simultaneously when said decoded said first

Page 4

type information matches said stored information pattern].

(Twice Amended) The computer system of claim 21. wherein: 27.

said power control unit is selected from a group consisting of a (i) power control

integrated circuit, and (ii) a MOSFET switch.

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Abdelmoniem Elamin whose telephone number is 571-2727-

3674. The examiner can normally be reached on MON - THUR 10:00 AM - 6::00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Thomas Lee can be reached on 571-272-3667. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would

like assistance from a USPTO Customer Service Representative or access to the automated

information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
